

AUGUST 9th SELECTED AS POPPY DAY IN MASON COUNTY

Special Effort for National Memorial University to Be Launched on Wednesday, August 9th—Committees Named.

Mason county will observe August 9th in honor of our soldier boys. On that day everyone will wear our National memorial emblem, the crimson poppy, the flower of Flanders Fields, as a tribute to those who for humanity's sake, made the supreme sacrifice, that "government of the people, by the people and for the people might not perish from the earth."

On Wednesday, August 9th, our National memorial emblem will be in every town in Mason county and should be in every home. That day will be called "Poppy Day."

In this great work every true American citizen will have an opportunity to do their duty in building for our National Memorial University which will not only stand as a wonderful tribute to our fallen heroes, but will be a complete educational institution for our future American citizens. All ex-service men and their heirs will be given special scholarships and privileges in this university. Through this 100 per cent. American movement, which is endorsed by the leading men and women of our nation, a complete education will be within the reach of all, rich or poor, and free as far as reasonable, from all local attachments and state prejudices.

Our first President in his last message to congress urged that body to promote institutions for the dissemination of learning. In his will he regretted that American students should go to other countries to receive higher learning and foreign ideas at an impressionable age when they should be imbibing the principles of patriotism. The citizens of Mason county are true and loyal. We sent our best young men, our best efforts of true patriotism and loyalty to our country was our every thought during the World War.

Now we will carry on the high ideals for which our soldiers fought, by every one doing their duty on "Poppy Day."

ENGLISH THINKER TO SPEAK ON MARRIAGE

Journalist and Lecturer Has Vital Message on Marriage Relations to Discuss at Local Chautauqua.

George E. O'Dell, an English journalist and lecturer, who speaks at the Maysville Chautauqua, first came to America in 1913, and after a spectacular tour was invited to join forces with the American Ethical Movement. Upon his acceptance, he was appointed field secretary of the American Ethical Union, and also founded the magazine "The Standard," of which he has been contributing editor for the past eight years. During the war, he served in the Canadian Army and at the close became leader of the Grand Rapids Ethical Society.

A deep, keen thinker and master of the platform art, he brings us a message on that wonderful institution—marriage—which gives us an entirely new outlook at this age when there is one divorce for every ten marriages. He is not a radical who flings wild sarcasm for divorce, neither does he call down burning embers on divorce, but in a delicate manner points to the beauty of marriage itself and suggests that the solution of the whole problem must come from a new conception of our duty to each other.

In securing O'Dell we are treated to a lecturer who has appeared before many of the large universities and the New York Board of Education. He is a man with a big subject—a paramount subject.

CARDS SPLIT SERIES WITH PARIS; BOTH TIED FOR FIRST PLACE

Very Poor Exhibition of Baseball in Sunday's Game Which Gave Paris A Partnership in First Position.

Paris regained her tie with the Cardinals for first position after so graciously letting her occupy the lead undisputed for nearly twenty-four hours when "Red" Kresser's services aided the visitors and handicapped the Cards to such an extent that the fans are wondering what "Red" must be guilty of before he is slipped the can by the management. Baseball ability, so it seems, gets no consideration on the local club, the only qualification necessary is to have worked in the "tannery in Millers Creek Valley." What a pity to the Cards that the tannery never developed but the one short fielder.

Getting back to Sunday's delirium. Wills had the shade over Bosken at heading with honors to Kresser for wild heaving. Poor stick work is the real cause of the downfall with three men piling all five hits, the rest being guilty of pop-ups.

The Mammoths opened up with a one run lead in the first. Bosken hit Cleona and Connolly's passed ball let him take second. Nippert hit to right for two bases scoring Cle but was out at third Bell to Slayback to Class.

The Cards tied it up on Slayback's double after two were out and Wood's miff of Class' liner to right. While the Cards rested on their oars until the eighth the Mammoths added one each in the second and third. Kresser threw Wunker's grounded to the cemetery and he took second. Harding let Hurst's liner go between his pins and Wunker made it run number 2 in the second. Paris made it three to one by adding another in the third on some good baseball. Cleona and Nippert singled. Macke sacrificed and Mann's sacrifice fly did the work. In the seventh Brockman two-bagged to left, took third on Cleona's out and came home on Nippert's sacrifice fly.

The cards rallied feebly in the eighth but fell short one run run. Wills displaying a case of "rattles," Margerum flied out. Bosken was safe on Mann's error. Fortner walked, Harding's single scored both runners after each stole a base. Slayback hit into a double play.

Chance to tie it in the ninth looked good but all hopes were soon dashed. Class hit down the left foul line and should have been allowed to try for second but was held at first. Connolly popped to short. Kresser rolled to short Class taking second. Bell popped to left.

GOVERNMENT PLANNING TO OPERATE ROADS AND MINES

Indications Are That President Expects to Use Drastic Measures to Protect the Public in Crisis.

Washington, July 24. — Powers almost as drastic as those used by the government during war time will be brought into play in dealing with the rail and mine strikes, it was believed today.

Issuance of an order declaring that the dual mine and rail strike constituted a national emergency within the meaning of Section 402 of the transportation act was expected from the Interstate Commerce Commission.

Issuance of this decree would result in strong action being taken by the government to protect the public interest. The administration in the contemplated step is expected to treat the two emergencies as one.

The plan contemplated by the government includes the two following steps:

1. Governmental direction of the railroads and control of the distribution and price of coal.

2. Seizure and operation of the mines.

The patience of the president in his efforts to bring the warring factions in both strikes together has about been exhausted and he feels it his duty to take action, according to administration senators who have been in close touch with the executive.

GOOD AUDIENCE AT UNION MEETING.

Despite threatening weather, there was a good sized audience at the union church services held Sunday evening at the court house yard and Rev. John Mullen, the pastor of the Christian church, delivered a splendid address that was really a treat to the members of the audience. Rev. Mullen is one of the city's most convincing speakers and his messages always contain food for thought.
